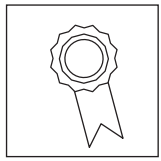
NEW VEHICLE WARRANTY CERTIFICATE



New Vehicle Warranty Application

This Warranty is given by GM Holden Ltd., ABN 84 006 893 232, ('Holden'). The Warranty applies to the vehicle identified on the inside front cover of this service booklet. It is provided to the original and subsequent owners/operators driving the vehicle within Australia during the Warranty Period. This Warranty is given in addition to all rights conferred by law on that person.

Australian vehicles

This Warranty is only applicable to vehicles purchased and operated in Australia.

This Warranty does not apply for Holden vehicles exported or operated outside Australia. Similarly, this Warranty is not provided for Holden vehicles purchased overseas and imported into Australia.

New Zealand vehicles

This Warranty is only applicable to vehicles purchased and operated in New Zealand. However, this warranty will not apply for Holden vehicles exported and operated outside of New Zealand or for Holden vehicles purchased outside of New Zealand and imported into New Zealand.

Warranty repairs covered

Subject to the exclusions shown on the following page, this Warranty covers the correction, of any manufacturing defect to materials or Holden workmanship and advised to a Holden Dealer or Authorised Service Outlet, by repair or at Holden's option by replacement.

Warranty period

The coverage commences from the date of first registration (or in the case of a demonstrator vehicle the date when the vehicle was first placed into service by the Dealer). The coverage expires at the end of the period of 3 years after the commencement date or after the vehicle has travelled 100,000 kilometres, whichever occurs first.

No charge

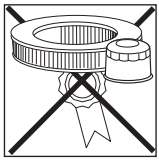
Warranty work performed (including parts and labour) will be carried out at no cost to the vehicle owner. However, this work should not be confused with servicing specified in the Maintenance schedule in this service booklet for which a charge is payable.

NEW VEHICLE WARRANTY CERTIFICATE cont.

WARRANTY EXCLUSIONS

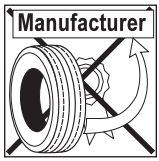
Damage

Your Warranty does not extend to the following damage: damage caused by an accident, fire, theft or moving objects striking the vehicle (including inside the vehicle); damage as a result of towing; damage caused by industrial fallout, chemicals or sealants; damage caused by atmospheric fallout or flood, hail, salt, etc.



Maintenance items

Services such as brake adjustment, brake replacement, replacement of filters, wiper rubbers etc., which are required as part of normal vehicle maintenance (refer to the service matrix in this booklet).

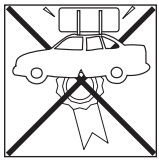


Tyres

The tyres (and tubes where applicable) fitted to your vehicle are not covered by this Warranty. However, they may be covered by the tyre manufacturer.

Batteries

Batteries are warranted for 12 months.



Misuse

This Warranty does not cover damage caused by:

(a) misuse or abuse of the vehicle such as by racing, rallying, overloading, etc., or neglect,

(b) operation of the vehicle after the defect is known,

(c) failure to carry out proper maintenance services (refer to the service matrix in this booklet),

(d) use of incorrect types and grades of fuel, oil or lubricants,

(e) alteration or modifications of the vehicle by anyone not authorised by Holden,

(f) fitting of parts or accessories not recommended by Holden,

(g) any work carried out on the vehicle by anyone except an Authorised Holden Dealer or Authorised Service Outlet.

PARTS AND ACCESSORIES WARRANTY

Holden warrants Holden approved Parts and Accessories ('Parts' and 'Accessories') for the periods and on the conditions set out below. The Warranty covers the correction, during the relevant Warranty Period, of defects in any such Parts and Accessories, by repair or at Holden's option by replacement.

Accessories installed to the new vehicle

Holden approved Accessories installed by a Holden Dealer or Authorised Service Outlet, to the new vehicle, at the time of purchase, are covered together with the New Vehicle Warranty for the period of 3 years or 100,000 km, whichever occurs first.

Parts and Accessories installed after new vehicle delivery by a Holden Dealer or Authorised Service Outlet

Parts and Accessories installed after a new vehicle delivery by a Holden Dealer or Authorised Service Outlet, are covered for 2 years or 50,000 km (whichever occurs first). If the vehicle is still within the New Vehicle Warranty, the Parts and Accessories are covered by the longer of:

- 2 years/50,000 km (whichever occurs first),

  OR
- the end of the New Vehicle Warranty.

As an example, an Accessory installed in a 7 month old vehicle would be covered until the end of the New Vehicle Warranty. An accessory installed in a 2½ year old vehicle would be covered until the end of 4½ years or a further 50,000 km from when the Accessory was installed.

Purchased at retail or trade

Parts and Accessories purchased at retail or trade over the counter and installed by other than a Holden Dealer or Authorised Service Outlet, are warranted for 1 year from the date of purchase. Please keep a receipt to support warranty claims.

The Warranty does not cover the labour costs of removal/reinstallation of Parts and Accessories when installed or rectified by other than a Holden Dealer or Authorised Service Outlet.

Parts and accessories warranty exclusions

The tyres (and tubes where applicable) are not covered by this Warranty. However, they may be covered by the tyre manufacturer.

Batteries are warranted for 12 months from date of purchase.

Parts which are required as part of normal vehicle maintenance are warranted against manufacturing defect at the time of installation. Consult your Holden Dealer to confirm the period of this Warranty.

WARRANTY QUESTIONS AND ANSWERS

This section is designed to assist you to understand the Holden Warranty provided with your new vehicle.

The following are some of the most frequently asked questions for which detailed answers are provided.

Q 1. How do I go about obtaining Holden Warranty service?

It is the responsibility of the Selling Dealer to provide Holden Warranty service, therefore, you should take your vehicle to the Selling Dealer whenever Holden Warranty service is needed. However, if this is not possible, you may go to any other Authorised Holden Dealer. The details recorded inside the front cover of this service booklet will be required by the Dealer.

Q 2. What should I do if my vehicle becomes unsafe or inoperative as a result of a defect which is covered by the Holden New Vehicle Warranty?

You should contact the nearest Authorised Holden Dealer or Holden Roadside Assistance as soon as possible, and arrange for that Dealer to carry out the required Holden Warranty Service.

Q 3. What should I do if, in an emergency, Holden Warranty Service is required and an Authorised Holden Dealer is not available to provide such service at the time?

If, in an emergency, a repair, replacement or adjustment (covered by the Holden New Vehicle Warranty) is required to enable your vehicle to be operated safely and it is not practical for you to go to an Authorised Holden Dealer, the service (to the extent that it is necessary to enable your vehicle to be operated safely) may be performed by any other qualified mechanic or repairer. A claim for the reasonable cost may be made through the Authorised Holden Dealer who would normally provide you with Holden Warranty service. You must also take your vehicle to the Authorised Holden Dealer for inspection of the service and/or completion of any required Holden Warranty service, as soon as possible.

Note During normal business hours, you should seek authorisation from your nearest Authorised Holden Dealer or Holden Customer Assistance Service, prior to repairs being commenced.

Q 4. Are damage or injury, loss of time, inconvenience, commercial or other direct or indirect loss covered by the Holden Warranty?

No, these items are not covered. Holden Warranty only covers the repair, replacement or adjustment of those parts of your vehicle which are found to be defective in materials or workmanship. No other types of claim for compensation of any kind, even if the same resulted from a consequence of a defect in materials or workmanship in your vehicle, will be recognised under the Holden New Vehicle Warranty.

You may have rights under the law to claim compensation outside of the Holden New Vehicle Warranty, but any claim based on those rights should be separately pursued.

WARRANTY QUESTIONS AND ANSWERS cont.

Q 5. Will I have to pay for maintenance costs during the Warranty Period?

Maintenance costs are not covered by the Holden New Vehicle Warranty. The Maintenance schedules in this service booklet specify the minimum maintenance required for your vehicle operating under normal conditions.

The Maintenance items (except where they are required as a result of defects in materials or workmanship) for which you will have to pay include:

- Engine tune-up, including spark plugs replacement.
- Replacement of all filters (including LPG lock off filter*), engine and other belts, hoses (including LPG hoses*) wiper blades and clutch linings.
- Cleaning or flushing of fuel, coolant, brake, engine, transmission, differential, power steering etc., after 3,000 km.
- Carbon and sludge removal.
- Maintenance servicing of emission control system devices.
- Adding to (or replacing) lubricants.
- Adding to (or replacing) air conditioning refrigerant, after 3,000 km.
- Any necessary adjustments to drive belts, transmissions, clutch, park brake etc.
- Wheel balancing – after 3,000 km.
- Wheel alignment.
- De-dusting or de-glazing of brake linings or pads – after 3,000 km.
- Brake pad/lining wear or damaged brake components due to brake/pad lining wear.
- Clutch lining wear or damaged clutch components due to lining wear.
- Brake disc pad or disc wear.
- Battery recharging.
- Paint, bright metal finish and trim, due to normal deterioration.
- Body panel adjustment – after 3,000 km.
- Door, or bonnet lock adjustments.
- Glass or channel adjustments – after 3,000 km.
- Body rattle, squeaks and general tightening of bolts, fasteners and fittings – after 3,000 km.
- Chipped glass or breakage.
- Torn or damaged floor mats or carpets.
- Normal wear and tear to trim components.

Q 6. Are my tyres covered by the Holden New Vehicle Warranty?

No. The tyres fitted to your vehicle may be covered by a separate warranty provided by the tyre manufacturer. Any Authorised Holden Dealer will assist you by discussing any queries which you might have with respect to the tyre manufacturer's warranty, with the tyre manufacturer's representative.

WARRANTY QUESTIONS AND ANSWERS cont.

Q 7. Will I have to pay for any costs or expenses in connection with the provision of Holden Warranty service?

All parts and labour used in carrying out Holden Warranty service at the premises of the servicing Holden Dealer, are free of charge. Whenever Holden Warranty service is to be carried out by the servicing Holden Dealer it is your responsibility to deliver your vehicle to the servicing Holden Dealer's premises.

If, as a result of a defect which is covered by the Holden New Vehicle Warranty, your vehicle cannot be driven safely and you arrange for the nearest Authorised Holden Dealer to carry out the required Holden Warranty service, Holden will accept reasonable towing costs to move your vehicle to the nearest Holden Dealer's premises. Before employing a towing company, contact the nearest Holden Dealer or Holden Roadside Assistance Service or Holden Customer Assistance Service to obtain guidance.

Q 8. Would my vehicle's engine benefit from fuel additives, oil additives or coolant additives not marketed by Holden?

The use of break-in oil, tune-up compounds, friction-reducing compounds and other supplemental additives is not recommended. Your vehicle has been designed, developed and tested by the manufacturer without the use of these additives. Any negative impact or consequences due to the use of additives may affect the validity of your New Vehicle Warranty.

Only the fluids and lubricants referred to in the owners handbook should be used.

Unauthorised statements in relation to Holden products

No Holden Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance, characteristics, descriptions or fitness for any purpose of any Holden product or in connection with the supply of any Holden product, which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by Holden in its published sales literature, and Holden does not accept any responsibility for such unauthorised action.

SERVICING

The free first inspection

The 3,000 km inspection is performed free of charge by the Selling Dealer. A different Holden Dealer may perform this inspection if provided with a letter of authority or similar.

The Selling Dealer may supply this authorisation upon request.

Service coupons

Service coupons are provided at the end of this booklet. When each service is performed, the appropriate coupon is removed. This reveals the next coupon to remind you when the next service is due.

After each service, check that the service has been validated with the Dealer's stamp and signature on the coupon stub. This is important as it not only assists in the determination of warranty claims, but enhances the value of the vehicle when selling.

Service coupons are provided for each service up to the 210,000 km service. After that time, the Maintenance schedule further on in this booklet should be followed, commencing with the 45,000 km service.

Additional service requirements

If you are driving your vehicle outside of the normal driving operations, you may need to conduct additional servicing. A service coupon and criteria for these additional services can be found in the additional service requirements section of this booklet.

Your Holden Dealer

When it comes to service, remember that your Holden Dealer has the trained personnel and specialised equipment to correctly service your vehicle. Your Dealer invites you to return for all your service needs both during and after the Warranty Period.

The safety, economy, emission control, performance and reliability of your vehicle cannot be assured unless regular maintenance is performed, preferably by factory-trained technicians at Holden Dealers.

Warranty and service

All maintenance services listed in this handbook, and replacement of service items, are the responsibility of the owner and as such are NOT considered under the provisions of the New Vehicle Warranty to be rectified of defective material and workmanship. Items such as wheel alignment, necessary adjustments to drive belts, transmission, clutch and parking brake or any other items which may require servicing due to fair wear and tear are carried out at the owner's cost.

Damage caused by failure to have proper maintenance services carried out by an Authorised Holden Dealer or Authorised Service Outlet, or in accordance with Holden's specifications, may void your New Vehicle Warranty. It is strongly recommended that you read the New Vehicle Warranty section previously in this booklet, so that you are aware of your warranty exclusions.

DETERMINING SERVICE INTERVALS

Determining the proper service interval

The operating conditions of your vehicle determine the service interval. Refer to *Additional service requirements* further on in this booklet. Use the odometer reading or the time interval, whichever occurs first, to determine when the service is due.

Under certain operating conditions, your Holden may require additional servicing to ensure maximum safety, performance and longevity.

The additional service requirements typically include more frequent replacement of lubricating oils for example, engine transmission fluids and the more frequent inspection of steering, suspension and brake system components.

Also, brake fluid deteriorates with time and should normally be replaced every two years. However, heavy duty towing places a higher demand on the brake system. Therefore, brake fluid should be replaced each year if towing 1,600 kg (or higher).

Your Holden Dealer will be able to determine the appropriate service requirements for your vehicle according to your operating conditions.

If you drive less than 15,000 km in a 12 month period, some oils may require changing more frequently. Engine oil can deteriorate faster than normal if the engine is operated in significantly hot or cold conditions or if driving in unusual environments (for example, high dust levels).

SERVICE INTERVALS

Distance/time based service intervals

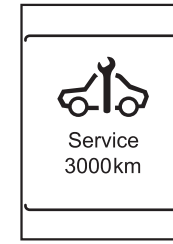
The first inspection is due at 3,000 km or 3 months (whichever occurs first). The first service is due at 15,000 km or 12 months (whichever occurs first). Thereafter, at every 15,000 km or 12 months since the last service (whichever occurs first). Additional services are required under certain driving conditions, such as when towing. Refer to *Additional service requirements* further on in this booklet.

Service reminder message

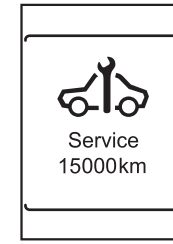
A service reminder message is built into the trip computer. The reminder message first appears 1,000 km before the service is due, giving you time to arrange for the service to be carried out. The message shows on the centre display for approximately 10 seconds whenever the ignition is switched on or off, until the trip computer is reset. When the service is overdue, the message flashes for approximately 10 seconds when the ignition is turned on or off.

It should be noted that the service reminder message applies only for regular service intervals.

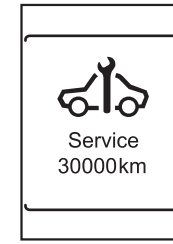
- **3,000 km service displays** when the vehicle has travelled 2,000 km since it was built.



- **15,000 km service displays** when the vehicle has travelled 14,000 km since it was built.



- **30,000 km service displays** when the vehicle has travelled 29,000 km since it was built.



This message is triggered by a distance calculation.

The service reminder will be reset by your Holden Dealer when the vehicle is serviced.

Remember to consider additional service requirements based on time and driving conditions. Refer to *Additional service requirements* further on in this booklet.

*Items requiring additional servicing under some driving conditions. Refer to *Additional service requirements* further on in this booklet.

SERVICE CHARGES

Lubricants and materials

The owner is charged for all lubricants and materials used, plus labour, at the times recommended on the service coupons.

Brake fluid

Must be changed every 24 months (charge added for brake fluid and 0.4 hour labour).

Clutch fluid

Must be changed every 24 months (charge added for clutch fluid and 0.2 hour labour).

Engine coolant

Must be changed every 60 months (charge added for engine coolant and 0.4 hour labour).

Fault repairs

The owner is charged for the repair or replacement of any part found faulty during a service check and not covered by Holden Warranty.

Where any deficiencies are noted, such items should be reported to the owner/operator and the extra work authorised.

Additives not recommended

The use of break-in oil, tune-up compounds, friction reducing compounds and other supplemental additives are not recommended; their use not only increases operating costs, but may indeed be harmful to your vehicle.

Pollen Filter

A pollen filter is available for this vehicle as a Holden Dealer fitted option. If installed the pollen filter requires servicing as shown in the maintenance schedule and the additional services requirements sections.

The charge added for pollen filter replacement is 0.4 hour labour.

ADDITIONAL SERVICE REQUIREMENTS

The Maintenance schedule previously in this booklet, shows the service items for normal driving requirements. Additional service items are required when driving under any of the operating conditions listed below. If you operate the vehicle under any of these conditions on a one off basis, for example a holiday trip, then an additional service should be performed for that time only. The additional service should include all additional service items that apply to the operating conditions.

Operating conditions

A = Dust, dirt, loose road material.

B = Muddy and wet areas.

C= Cold weather (below 5 °C) and when most trips are less than 5 km.

D= Stop-start driving, excessive idling or low speed operation as experienced in inner city driving, for example taxi or door-to-door delivery, police.

E= Caravan or trailer towing.

F= Extended heavy load, high speed operation in outside temperatures above 35 °C.

Extra services required

Change automatic transmission fluid and filter/strainer every 75,000 km (4 speed, 5 speed and 6 speed)				D	E	F	
Inspect front suspension and steering for leaks, wear or damage every 7,500 km	A	B					
Change engine oil every 7,500 km or 6 months (whichever comes first)	A		C	D	E	F	
Replace engine oil filter every 7,500 km or 6 months (whichever comes first)	A						
Replace air filter element every 15,000 km	A						
Inspect and clean park brake linings every 15,000 km	A	B					
Change brake fluid every 1 year if towing 1,600 kg (or higher)*					E		
Change power steering fluid every 60,000 km					E	F	
Visual inspection of carbon canister every 15,000 km	A	B					
Replace #pollen filter* every 15,000 km (Holden Dealer fitted option only)	A						

*Brake fluid deteriorates with time and should normally be replaced every two years. However, heavy duty towing requires fresher fluid due to the higher demand on the brake system. Therefore, brake fluid should be replaced each year if towing 1,600 kg (or higher), so that the brake system can cope with the next year's towing requirements.

#The pollen filter is a Holden Dealer fitted option only.

ADDITIONAL SERVICE REQUIREMENTS cont.

7,500 kms or 6 months since the last major service (which ever occurs first).
Only required for vehicles that are operated in extreme conditions.*
For applicable operating conditions please refer to page 17.

Additional service charges

- Under vehicle/safety check .....0.4 hour
- If the automatic transmission fluid and filter/strainer are changed .....add 0.5 hour
- If engine oil is changed .....add 0.2 hour
- If engine oil and filter are changed .....add 0.3 hour
- If air filter element is changed .....add 0.2 hour
- If park brake linings are cleaned and inspected .....add 0.7 hour
- If brake fluid is changed .....add 0.4 hour
- If power steering fluid is changed .....add 0.4 hour
- If tyres are rotated.....add 0.2 hour
- If the carbon canister is visually inspected .....add 0.2 hour
- If the #pollen filter* is changed .....add 0.4 hour

Under vehicle/safety check

- ❑ Inspect front and rear disc pads for wear.
- ❑ Check all brake, fuel lines and hoses for condition, attachment and routing.
- ❑ Inspect front and rear suspension and steering for damaged, loose or missing parts, wear or lack of lubrication. Inspect power steering lines and hoses for condition, attachment, routing and leaks. Check condition of all rubber boots and covers.
- ❑ Inspect all constant velocity joints for damage or torn boots and propshaft rubber couplings for tears and splits.

Vehicle exterior

- ❑ Check operation of all exterior lights.

#The pollen filter is a Holden Dealer fitted option only.

ADDITIONAL SERVICE REQUIREMENTS cont.

Further servicing required?

As a guide, if you operate your vehicle continually for a period of one month or 1,000 km under any of the conditions listed, then additional services are recommended. If you consider that further servicing may be required, consult the service manager or your Holden Dealer.

Under bonnet

- Check fluid levels: brake, power steering, clutch, automatic transmission and washer. Check coolant % with tester and check level (pressure test if level low).
- Check for signs of deterioration and/or leaks from engine, fluid reservoirs, air ducts, all hoses and clamps.

Under vehicle

- Check final drive and automatic transmission for leaks.
- Check manual transmission for leaks.
- Inspect tyres for irregular wear and damage. (1) Rotate and balance wheels (if required). Check air pressures and for wheel damage. Check spare wheel mounting for security.
- Check all brake, fuel lines and hoses for condition, attachment and routing.
- Inspect front and rear suspension and steering for damaged, loose or missing parts, wear or lack of lubrication. Inspect power steering lines and hoses for condition, attachment, routing and leaks. Check condition of all rubber boots and covers.
- Inspect exhaust and adjacent underbody for damaged, missing or misaligned parts, open seams, holes or loose connections. Run the vehicle and check for exhaust leaks.
- Inspect all constant velocity joints for damage or torn boots and propshaft rubber couplings for tears or splits.
- Clean and lubricate automatic transmission shift linkage.
- Inspect rear sunroof drain tubes for blockage, located behind rear wheel arch (sedan only).
- Inspect oil pan shield for damaged, missing or misaligned parts and loose connections.

Vehicle interior and boot

- Check park brake operation and adjust as required.
- Seat belt inspection. Check webbing condition, buckle operation and retractor mechanism operation.
- Reset service reminder display.
- Check battery terminals for corrosion, (clean as required). Check battery terminals & hold down clamp for security. Check battery vent hose for attachment to battery & outside of boot (sedan) or floor pan (ute). Check battery vent hose is routed correctly & not kinked or restricted.

Vehicle exterior

- Check operation of all exterior lights.
- Check transmitter range of security system.
- Inspect front sunroof drain tubes for blockage, located in front door opening at the A pillar (sedan only).

Road test

- Check for braking, steering, engine response & transmission operation.
- Check operation of cruise control.
- Check park pawl operation.
- Check air conditioner performance.
- Check neutral start switch.
- Check for any outstanding safety recalls.

SERVICE COUPON 15,000 km or 12 months

from the last service (whichever occurs first)

I authorise performance of the services specified on this coupon. I understand that I will be charged for the time, parts and lubricants as listed.

- 1.2 hours labour
- engine oil and filter

There will also be a charge for additional services as required.

.....

.....

.....

Signature .....Date.....

Note If the owner of this vehicle has changed since the last service, refer to the change forms at the front of this booklet.

Under bonnet

- Change engine oil and filter.
- Check fluid levels: brake, power steering, clutch, automatic transmission and washer. Check coolant % with tester and check level (pressure test if level low).
- Check all accessory drive belts. Check length indicator and condition.
- Check for signs of deterioration and/or leaks from the engine, fluid reservoirs, air ducts, all hoses and clamps.

- Seat belt inspection. Check webbing condition, buckle operation and retractor mechanism operation.
- Reset service reminder display.
- Replace key remote control battery.
- Check battery terminals for corrosion, (clean as required). Check battery terminals & hold down clamp for security. Check battery vent hose for attachment to battery & outside of boot (sedan) or floor pan (ute). Check battery vent hose is routed correctly & not kinked or restricted.

Vehicle exterior

- Check operation of all exterior lights.
- Check transmitter range of security system.
- Inspect front sunroof drain tubes for blockage, located in front door opening at the A pillar (sedan only).

Road test

- Check for braking, steering, engine response & transmission operation.
- Check operation of cruise control.
- Check park pawl operation.
- Check air conditioner performance.
- Check neutral start switch.
- Check for any outstanding safety recalls.

SERVICE COUPON 105,000 km or 12 months

from the last service (whichever occurs first)

I authorise performance of the services specified on this coupon. I understand that I will be charged for the time, parts and lubricants as listed.

- 1.2 hours labour
- engine oil and filter change

There will also be a charge for additional services as required.

.....

.....

.....

Signature .....Date.....

Note If the owner of this vehicle has changed since the last service, refer to the change forms at the front of this booklet.

Under bonnet

- Change engine oil and filter.
- Check fluid levels: brake, power steering, clutch, automatic transmission and washer. Check coolant % with tester and check level (pressure test if level low).
- Check all accessory drive belts. Check length indicator and condition.
- Check for signs of deterioration and/or leaks from the engine, fluid reservoirs, air ducts, all hoses and clamps.

Service validation
105,000 kms or
12 months
Since last service
(which ever occurs first)

This vehicle has been thoroughly checked in accordance with the 105,000 km/12 month service.
Servicing Dealer..... Additional services performed
Brake fluid changed: YES/NO Coolant changed: YES/NO .....
Clutch fluid changed: YES/NO/ N/A (not applicable) .....
Date of service..... Odometer..... .....
Signed ....

Under vehicle

- Check final drive and automatic transmission for leaks.
- Check manual transmission for leaks.
- Inspect front and rear disc pads for wear and discs for surface condition.
- Inspect tyres for irregular wear and damage. (1) Rotate and balance wheels (if required). Check air pressures and for wheel damage. Check spare wheel mounting for security.
- Check all brake, fuel lines and hoses for condition, attachment and routing.
- Inspect front and rear suspension and steering for damaged, loose or missing parts, wear or lack of lubrication. Inspect power steering lines and hoses for condition, attachment, routing and leaks. Check condition of all rubber boots and covers.
- Inspect exhaust and adjacent underbody for damaged, missing or misaligned parts, open seams, holes or loose connections. Run the vehicle and check for exhaust leaks.
- Inspect all constant velocity joints for damage or torn boots and propshaft rubber couplings for tears and splits.
- Clean and lubricate automatic transmission shift linkage.
- Inspect rear sunroof drain tubes for blockage, located behind rear wheel arch (sedan only).
- Inspect oil pan shield for damaged, missing or misaligned parts and loose connections.

Vehicle interior and boot

- Check park brake operation and adjust as required.
- Seat belt inspection. Check webbing condition, buckle operation and retractor mechanism operation.
- Reset service reminder display.
- Check battery terminals for corrosion, (clean as required). Check battery terminals & hold down clamp for security. Check battery vent hose for attachment to battery & outside of boot (sedan) or floor pan (ute). Check battery vent hose is routed correctly & not kinked or restricted.

Vehicle exterior

- Check operation of all exterior lights.
